*Pack of 12 Communication Unscented Spell Candles (24/48)

Barcode:5056131147058

Product Description

Pack of 12 blue spell candles for use with rituals to attract communication, confidence and calmness. Candle magic is one of the simplest forms of spell casting in which the caster decides on a goal, visualizes the end result and focuses intent or will to manifest that result. Typically the caster will write down their intent on a piece of paper the same colour as the candle, and burn the paper in a fire safe bowl. Designed by Something Different as part of the Herbal Magick range. All of our spell candles are solid colour all the way through (not dipped). Each candle has an approx burn time of 1 hour.

Made from paraffin wax. Colour may vary slightly between production batches. Never leave a burning candle unattended. Do not burn for longer than 30 minutes at a time and never allow the candle to burn all the way down to the base.

The product is manufactured in China

Product Dimensions:

W 7.4cm x H 10.5cm x D 2.5cm

Product Weight:

113g

Product Materials :

Wax

Packaging Materials:

Colour Cardboard Box

Tracability:

Packaging Information:

W 7.4cm x H 10.5cm x D 2.5cm

Packed Weight:

113

Prism: Product Risk Assessment Methodology

Risk assessment background and summary of outcomes			
Assessor name:	Stacey Gannon	Organisation:	Something Different Wholesale LTD
Date of initial assessment:	21 March 2025	Assessment reviewed by:	
Date of last update:		Assessment review date:	
Product brand:		Product category:	Cosmetics
Product name/model:		Product subcategory:	
Other identifiers (such as batch reference):		Name of business that placed the product on the market:	Something Different Wholesale LTD
Applicable product safety legislation and standards:		Have images been captured of the product?:	Yes
Who is the product aimed at?:	General Public	Number of hazards identified:	3
Could unintended or non-users be at risk?	No	Can the product be presumed to present a serious risk without a quantified risk assessment?:	No
Single product item risk level:	High risk	Has the risk outcome been revised to reflect there being multiple hazards?:	No, the hazard creating the greatest risk sufficiently reflects the overall product risk
Estimated number of product items in use:		Overall level of risk for product:	High risk
Sensitivity analysis outcome:	Sensitivity analysis not performed	Uncertainty level:	Low uncertainty
Factors related to the nature of the risk: outcome:	There are factors in addition to the risk level that need to be taken account of in relation to risk management decisions	Risk tolerability outcome:	Risk is tolerable
